Power Point Presentations are allowed. If you choose this option, you are still required to participate at work sessions and practices. If you choose to do posters, please have all posters created with our office no later than May 10th. This will be the last poster making opportunity. All PPT kids need to save their power point onto a flash drive in which you will have to provide. At District and State Presentations all rooms will have computers and projectors but you are to provide the flash drive with your PPT to present in your room.
